BLOOMINGTON,

As it Was, and Is.

THE rapid and wonderful growth of Western towns and cities is a subject of general conversation, not only among ourselves, but all over this broad Union! A wild prairie to-day and a city to-morrow!—The whoop of the red man and the piercing shriek of his murdered victim to-day, and the snorting of the "iron horse," with the cheerful clinking of the mechanic's hammer to-morrow, are allegorical sayings which have almost become fixed realities. To those, used only to seeing the slow, snail-like pace of Eastern towns and cities, the hurry, bustle, seeming-confusion and railroad speed of Western progress seem strange and unaccountable; and, not until they themselves have fully entered into the strife, do they realize that things can be done as well by the steam and lightning principle, as upon the snail and ox principle. The brilliant line of the Poet is no longer problematical, that

"Westward the star of empire takes its way."

Scarce thirty years ago the spot, on which now stands the beautiful and thriving city of Bloomington, was a wild, unbroken prairie; and was purchased of the U. S. Government, by our worthy and highly esteemed citizen, James Allin, Sen., at \$1 25 per acre. At the session of the Illinois Legislature, 1830-31, he succeeded in getting a bill passed for the then new county of McLean, with such boundaries as to make this spot the most feasible for the county seat.—When the Commissioners came on to lay off the new county, Mr. Allin proposed to donate to the county about 30 acres for the county seat, which proposition was accepted and the town located.

A public sale took place on the 4th of July, 1831, at which time a large number of lots were disposed of, at prices varying from \$5 to \$50. This was the first celebration of the glorious Fourth ever held in

Bloomington, and we "guess," as the Yankees say, that a number of our now wealthy citizens have never regretted that they took part therein; as many of the lots which then sold from 5 to 50 dollars are now worth, and are selling, at from 500 to 3,000 dollars.

The courts were first held in a small room in one end of Mr. Allin's log house, and then in a little frame building erected on the public square for that purpose, until 1836, when the present brick court house was erected at a cost of about \$8,500. The court house since that time has undergone frequent repairs, adding considerably to its beauty, and making its present cost much above these figures.

In 1832 the county of McLean embraced an area of 42 by 48 miles—the number of votes polled that year were 382. Since that time portions of the county have been taken off to help form the counties of Livingston, Woodford, DeWitt and Logan, leaving the present size of the county 42 miles from east to west by about 30 from north to south. The census of the county, recently taken, shows a population of about 20,000.

Messrs. Allin, Evans, Dimmett, Larrison, Baker, Gridley, McKisson and Covell may be considered the first settlers of Bloomington, all of whom, except Covell, are still residents of our city, having lived to witness its wonderful growth and prosperity.

The first store in Bloomington was commenced by James Allin, Sen., in 1829, in a log cabin near the corner of our present East and Grove streets. Many of his customers were Indians from the surrounding groves. Up to 1840 there were only 6 small stores in the place, while at this time we can boast of as many fine brick store houses and thrifty merchants as any city of like size in the United States.

The first brick building in the town was erected by James Allin, Sen., in 1839, at the corner of Centre and Front streets. Now they are scattered all over the whole city, and many of them, both private residences and blocks of stores, would do honor to cities of a "larger growth."

The first steam mill in Bloomington was built by a Mr. Chase, of Cincinnati, in 1835. We now have 8 steam mills in operation, all doing a profitable business.

The Indian war which broke out in 1832 created a good deal of excitement in the town and county, and a company of volunteers was raised here for the war, of which Gen. Covell was the Captain, Gen. A. Gridley, 1st Lieutenant and M. Baldwin, 2d Lieutenant. Other than this, very little excitement of any kind was known to disturb the peace and quiet of the then little town. The few inhabitants that were then here were at peace with each other; the soil produced bountifully; produce of all kinds could be had in abundance at a "mere song;" and, as one of the old citizens expressed it, they were enjoying "a little heaven upon earth;" when, all of a sudden, the "steam horse" bursted upon them; the Goths and Vandals of the East came rushing in; property changed hands; log cabins and little frame houses gave place to large and beautiful residences; flower gardens and tastefully arranged shrub-

bery yards were desecrated with the erection of large blocks of three-storied brick stores; and the very earth seemed to tremble with the heavy march of improvement!

The following table will show the advance in produce here since 1840:

Wheat, in 1840,	37 1-2 cents,	in 1855,	\$1 25
Corn, " "	10 " "	" "	25
Oats, " "	10 " "	" "	25
Butter, " "	4 a 8	" "	15 a 25
Eggs, " "	3 " "	" "	10
Potatoes, " "	10 " "	" "	25

The advance in price of all kinds of produce is, of course, attributable to the facts of increased population and railroad facilities for shipment. In early times the only way for farmers of this county to get money, was, to cart a load of wheat about 40 miles, to Pekin, on the Illinois river. Then nothing but wheat would bring cash—all other kinds of produce had to be traded for store goods at tremendous big prices. Many of our more wealthy farmers, however, didn't pretend to sell their grain; but would feed it up to stock, for which, when grown, and driven to Chicago or further east they got the cash. Now all kinds of grain and produce sells here readily for cash, and buyers are willing and anxious to purchase at good living prices.

The following table will show the increase of inhabitants in Bloomington from time to time:

In 1834, census taken by Allen Withers, Esq.,	contained	180
1837, " " do		450
1845, " J. E. Parke,	about	800
1850, " Wm. McCullough,		1,611
1855, " E. B. Mitchell,	contained about	5,000

In 1850 the citizens thought it expedient to have a city organization. To get a city charter required a population of at least 1,500 inhabitants. The census was taken and the town found to contain, as above stated, 1,611 souls, whereupon a charter was obtained, and the requisite officers elected. The following named persons are the present city officers:

Mayor—Franklin Price,
City Police Justice—Jesse Birch, Esq.,
Aldermen—Messrs. Chatfield, Ellsworth, Hinshaw and Route,
City Attorney & Clerk—John M. Scott,
City Marshal—Alexander Briscoe,
City Treasurer—R. O. Warinner,
Street Commissioner—Ephraim Platt.

To the building of the two railroads (which intersect each other at this point) may be mostly attributed the recent rapid growth of our city. 'Tis true that the place was in a healthy, growing condition prior to their commencement; but not until they were commenced and completed did it assume the rapid growth and importance which it has attained.

The surveys for the Illinois Central Railroad commenced at this

point in 1851. In the spring of 1852 the work commenced, and in June, 1853, the cars were running south to this point. It was expected that the machine shops of the Central road would be located here; but the Company subsequently determined to build them at Wapella, and consequently only a passenger house, freight house, &c., were erected here.

In the spring of 1852 the surveys for the Chicago, Alton & St. Louis Railroad were made through this county, and in the fall of the same year the work commenced thereon near this place. In the fall of 1853 the cars were running from Springfield here, and in the spring of 1854 the road was completed through from Alton to Joliet, making a complete and speedy connection between St. Louis and Chicago. This being the best and most central point on the road, the Company decided to establish their machine shops and offices here, which have been and still are of very great advantage to the city; bringing, as they have, a large and valuable class of citizens to reside among us, and employing over 500 hands as Conductors, Engineers, Machinists, Laborers, &c.—Hamilton Spencer, Esq., the former Vice President and present Lessee of the road, together with all the principle officers of the road reside here, several of whom have bought and built for themselves fine residences, and are men of wealth, character and position.

We cannot close this short and hasty sketch of our city without paying a passing tribute to those who used their influence in the location of the two depots—making one on the east and the other on the west side of the city, about three-fourths of a mile apart. This wise and judicious policy has caused the city to expand towards both depots, spreading the city out over a much larger era than it otherwise would have been, and leaving uninjured the old and central portion of the city.

Take it all in all we think there is no city, of its size, in the whole Union which exceeds Bloomington. I have myself traveled through 16 States, and visited many of the principal towns and cities in each, and give it as my calm and settled conviction that in beauty of location; healthfulness of climate; richness of surrounding country; enterprise and urbanity of its citizens, there is no place in the whole United States which excels, or even equals our own beautiful city; and we venture to predict that in less than ten years from this date our city will contain a population of not less than 20,000, with Manufactories and Public Institutions equal, if not superior, to any city of like size, in the mighty West!

We would have gladly stopped our little sketch at this point; but a recent fearful fire in our midst makes it our duty to record it as a part of our history, and a mournful part it is, too.

On the night of Oct. 16th a fire broke out in the stable attached to the Morgan House, and before the flames could be arrested every building on the block, except the McLean County Bank, and Messrs. Dietrich & Bradner's hardware store, was laid in ruins. By it a large number of our valuable citizens was suddenly deprived of store-houses, work-shops and homes—leaving in their stead only the blackened ruins

of a fearful conflagration. The loss is variously estimated at from 75,000 to 150,000 dollars. By the falling of one of the chimneys a Mr. Green was killed, and two others badly wounded.

An Ordinance has been passed preventing any but brick houses to be built upon the square; and already several of the lot owners are beginning to rebuild on the "burnt district." The probabilities are that within two years time the whole block will again be rebuilt with good and substantial brick edifices.

For a more definite description of our public organizations and institutions we would refer the reader to the few following pages:

Colleges.

ILLINOIS WESLEYAN UNIVERSITY.

This College was organized under a general law in the autumn of 1850, by the appointment of a board of Trustees and the election of the Rev. Reuben Andrus as principal of the preparatory department. During the following year a faculty was duly organized by the election of Rev. John Dempster, D. D., as President. Rev. William Goodfellow and Rev. Reuben Andrus as Professors. The Rev. Tomas Magee was appointed agent, who succeeded in raising, during the year, for building purposes, about \$16,000. A College site was donated by James Allin, Esq., near the depot of the Chicago, Alton & St. Louis Railroad. The Rev. C. W. Sears was elected to the Chair of Ancient Languages and Literature in the summer of 1852, and entered upon duty the next October. For two years the institution enjoyed great prosperity considering the many disadvantages under which it labored for the want of endowment and building accommodations. During this time two students were regularly graduated. In the summer of 1854 Dr. Dempster resigned the Presidency, and the school was also

temporarily suspended. During this year the College site was removed, and the present new and elegant edifice erected upon land obtained from Mr. Phoenix. A more fortunate location could not have been found. In July, 1855, Rev. C. W. Sears, A. M., was elected President, and the preparatory department re-opened in the new building. At present there are between thirty and forty students in attendance.—The building can accommodate forty students with rooms and board. \$10,000 have been raised upon the endowment. The President will travel through the State the coming year, for the sale of scholarships, and raising of donations. The scholarships are available as soon as \$25,000 are secured. The institution is under the patronage of the Illinois annual Conference, which has pledged its hearty support and co-operation. Its location and patronage must make it soon one of the first institutions in the State.

CENTRAL ILLINOIS FEMALE COLLEGE.

This Institution was organized in July, 1853, and commenced operation the following September, under the direction of a full Board or Trustees. D. Wilkins, Jr., A. M., was elected President and Professor of Mental and Moral Philosophy, and Ancient Languages. Mrs. E. Wilkins, Teacher of Vocal and Instrumental Music, Mrs. D. E. W. Carson, of Mathematics, Miss Olivia Jerome, of the Natural Sciences and Modern Languages, Miss Mary M. Platt, Teacher in Preparatory Department, and Miss Betta L. Park, Assistant Teacher. The number in attendance the first year was one hundred and forty-four; the second year two hundred and twenty-one; and the last year three hundred and three.

The prosperity of this Institution has far exceeded the expectations of its most sanguine friends, and it is the determination of the Trustees that it shall be second to none in the West.

During August last nearly five thousand dollars were expended by Messrs. Isaac and Jesse Funk, for a boarding building, which will accommodate about sixty young ladies. The College building will accommodate at least two hundred students.

The whole amount of property invested for the benefit of the institution is nearly ten thousand dollars.

One young lady received the degree of Mistress of the Liberal Arts, at the close of the last year.

The present officers of the Board of Trustees are Jesse Birch, Esq., President; Jesse W. Fell, Vice President; Daniel Wilkins, Jr., Secretary; Edward Doughty, Treasurer.

Board of Visitors: Hon. David Davis, Hon. John Moore, Rev. F. N. Ewing, John Magoun, Rev. L. Crane, Rev. J. Montgomery, and Rev. Wm. Rutledge.

Board of Instruction: D. Wilkins, Pres., Mrs. E. Wilkins, Miss L. Reddick, S. J. Funk, M. Platt, and W. Deininger.

WESTERN LAW AND MEDICAL COLLEGE.

The charter for this Institution, to be located in this city, was put

upon file in Sept. 1853. The building (College Hall) in which it was designed to give the lectures was finished in the fall of 1854. During the winter of 1854-55 a preliminary course of lectures were given by Drs. Luce, Roe, Wilkins and Freese. It was expected that arrangements could be completed for giving a regular course of lectures here this winter, and a faculty was organized for the purpose: but unavoidable circumstances will cause a still farther delay in the regular exercises of the college.

The present organization of the Medical Faculty is as follows:

- J. R. Freese, M. D., President of the Faculty, and Professor of the Principles and Practice of Surgery.
 A. H. Luce, M. D., Prof. of the Theory and Practice of Medicine.
 E. R. Roe, A. M. M. D., Prof. of Physiology and Pathology.
 T. F. Worrell, M. D., Prof. of Materia Medica and Therapeutics.
 W. A. Elder, M. D., Prof. of Obstetrics, and Diseases of Women and Children.
 D. Wilkins, Jr., A. M., Prof. of Chemistry and Pharmacy.
 E. Niccolls, M. D., Prof. of Anatomy.
 C. R. Parke, M. D., Demonstrator of Anatomy.
